TRAVEL BY AIR

BETWEEN

LOS ANGELES

SAN DIEGO

AND

AGUA CALIENTE

IN OLD MEXICO

G. & G.—GILPIN AIRLINES

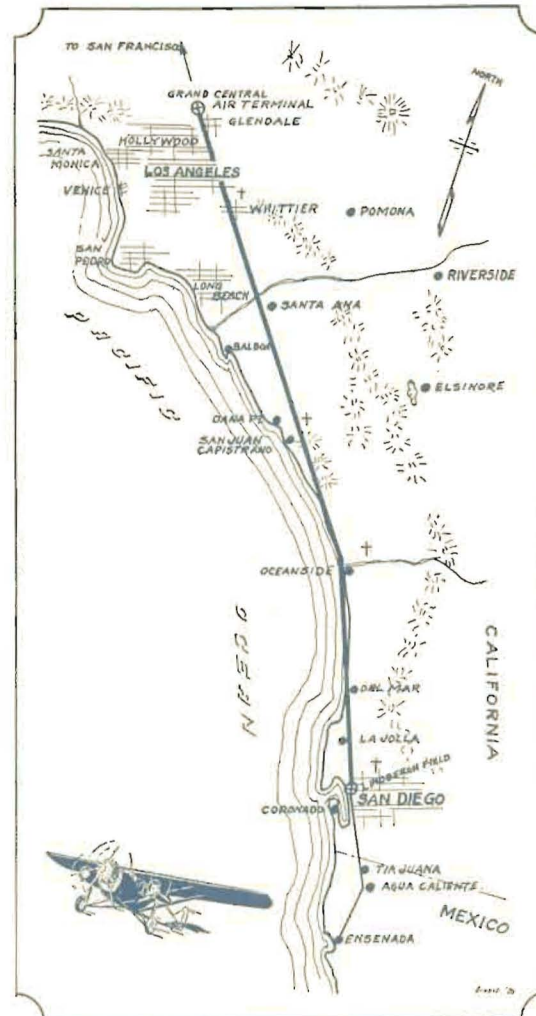

THE GILPIN AIRLINES operate ten place, tri-motored cabin planes between Los Angeles, San Diego and Agua Caliente in Old Mexico. These planes are inspected and licensed by the United States Department of Commerce. They have a cruising speed of 125 miles per hour. The cabins are comfortably appointed and have every convenience for the passenger.

The route flown is one of the most interesting and beautiful to be found on the Pacific Coast. Two-thirds of the route is directly over the shore line of the Pacific Ocean. Ships at sea and Old Spanish Missions along El Camino Real (Coast Highway) form a panorama of constant delight.

Our schedules between the coast cities offer real advantages to the business traveler. A round trip may be made and business transacted in the short space of a business day.

The attractions of the world famous resorts at Tia Juana, Agua Caliente and Ensenada, in Old Mexico, are now at your door step. Speed your journey and have more time at your destination by traveling the skyways.

You will appreciate this fast, clean, comfortable service, offered at surprisingly low rates by the G. & G.—Gilpin Airlines.

Route Flown by G. & G.—Gilpin Airlines

INFORMATION FOR PASSENGERS

(Make Reservation Early)

Tickets should be purchased and reservations made prior to departure of the plane. Return trip reservations should also be made when the ticket is purchased, to insure a seat being held for the passenger.

A rate of half fare will be accepted for children under eleven.

Each passenger will be allowed thirty pounds of personal baggage free. Additional baggage will be carried, if space permits, at an excess baggage charge of 15 cents per pound.

Refunds on tickets will not be made unless sufficient notice of cancellation is given, thereby enabling the company to dispose of the seat before the departure of the plane.

Every effort will be made to maintain the published schedule, but, due to weather and other conditions beyond our control, we reserve the right to cancel or stop the flight at any point en route to insure the safety of the passengers. The passenger's sole recourse, in such event, shall be the recovery of the proportion of the fare paid, according to the distance flown.
