Spanish Air, Naval Forces Strike Rebels

Government Claims Control of Outbreaks in Spain Proper; Morocco in Turmoil

2 Generals, 30 Officers Reported to Be Killed

Cities Are Bombed by Official Planes, Revolt Is Crushed Among Seville Soldiers

Bulletin

MADRID, July 19—(Sunday)—(AP) — The Spanish cabinet of Premier Santiago Casares Quiroga, harassed by a military revolt in Spanish Morocco and the Canary Islands and outbreaks in Spain itself, resigned early today.

(Copyright, 1936, by Associated Press)

MADRID, July 19—(Sunday)—(AP)—Spanish air and naval forces moved early today against revolting soldiers in Spanish Morocco and the Canary islands, as the government claimed complete control of outbreaks in Spain itself.

A solid labor front was formed in Spain in support of the leftist government. Socialist, communist and syndicalist leaders ordered general strikes in any places where martial law was proclaimed contrary to government orders.

Rebels Hold Morocco

(Reports from Tangier, internationalized zone in Morocco, said 20,000 rebels headed by Gen. Francisco Franco, military governor of the Canary islands, held complete control of Spanish Morocco.

(An unconfirmed dispatch received at Oran, Algeria, related however, that Franco had been arrested, two generals killed and 30 other officers seized at Tetuan, capital of Spanish Morocco.

(This report stated loyal soldiers, joined by naval and aviation forces which refused to join the rebels, made a successful counter-attack.

Close Spanish Border

(British authorities at Gibraltar, on the southern tip of the Iberian peninsula closed the Spanish border after an encounter at La Linea, Spain, in which one person was killed and at least 20 were injured.

(Reports received at Gibraltar said 20,000 troops of the Spanish foreign legion were participating in the Moroccan revolt.)

Spanish government airplanes bombed the cities of Melilla and Ceuta, Spanish Morocco. Warships had been sent to aid in attempting to crush the rebellion across the narrow strait separating Spain from north Africa.

Governor Besieged

The civil governor of the Canary islands informed the government at Madrid he and the civil guard chief at Las Palmas were besieged in his palace.

Admitting the revolt had spread to Spain proper, the government declared it had crushed a rebellious movement among soldiers at Seville, important southern city.

General Franco was relieved of his command by a cabinet decision, along with General Queipo De Llano, who the government accused of leading the outbreak at Seville.

(French sources provided unconfirmed reports that fighting had occurred at Cadiz, Burgos and Barcelona, as well as in Seville.)

King Will Have to Take More Precaution

LONDON, July 18—(AP)—Scotland Yard officials, torn between a desire to please their sovereign and their duty to protect him, today decided King Edward would have to be induced to change his habits.

Edward probably will be forced to travel about London in a motor car.

Weather

MISSOURI: Partly cloudy and not so warm in northwest, local thundershowers in east and south Sunday; Monday, fair in northwest, local thundershowers in east and south.

High temperature, 105.

The Missouri river stage at 6 p.m. yesterday stood at 7.14, a drop of .1 from the morning reading.

Brakes Fail to Hold, Car Runs Into Residence

A 1927 Chevrolet sedan made a surprise call on a family seated in their home on West Main street yesterday, but instead of using the door it attempted to enter through a wall.

J. H. Wehmeyer of Holt Summit, told police he parked the car in the 600 block West Main street and went into a nearby grocery.

The brakes failed to hold and the car ran across the street, crashing into a house occupied by Joe Bueker at 614 West Main street. Police reported a large hole was torn in the brick wall. Wehmeyer agreed to make necessary repairs to the house. necessary repairs to the house, police were told.

John Warner, 81, Dies of Old Age at Home of Son

Until Retirement 10 Years Ago, He Was in Milling Business

John Warner, 81, father of Chas. E. Warner, musical director of the Roscoe Enloe Post No. 5, American Legion Drum and Bugle corps, died at 2:30 o'clock yesterday morning.

Death, attributed to complications of old age, occurred at the son's home, 121 West McCarty street.

Born in St. Louis

Mr. Warner was born in St. Louis, July 4, 1851, and until his retirement ten years ago, was in the milling business. He came to Jefferson City from Hannibal in 1930 to make his home with his son.

Besides his widow and son, Charles, three children survive. They are A. J. Warner of St. Louis, Mrs. James Pieper of Hannibal, and Mrs. Charles H. Nelson of Pattonsville, Mo.

Funeral services will be held this afternoon with burial in Riverview cemetery.

Additional Funds for Reformatory

$200,000 Prison Appropriation Transferred to Boonville Projects

The state bi-partisan advisory board announced yesterday $200,000 in additional funds had been made available for the building of new dormitories and rehabilitating other buildings at the Missouri training school at Boonville by the recent abandonment of a project at the state women's prison here.

The board said the transfers of the $200,000 would swell the training school's building program to more than a half million dollars.

An original grant for $323,000 is being used to construct a $105,000 gymnasium and fire proofing and repairing other buildings at the institution. A contract for a new $75,000 dormitory will be let Aug. 18, with work to start on it Sept. 1.

Joplin Man to Retire

WASHINGTON, July 18—(AP)—The state department announced today Harry D. Myers, Joplin, Mo., American Consul at Panama, Panama, will retire from the service on October 31.

12 Bodies Recovered

TUQUERRES, COLOMBIA, July 18—(AP)—Twelve bodies were found today in the ruins of earthquake-shaken Tuquerres.

Says Old Age Pension Plan Not Feasible

Socialist States Townsend Movement, No Others Will Help Under Capitalistic System

Much Money Collected at National Convention

Conclave Resolves Not to Endorse Anyone for President, Vice-President This Year

CLEVELAND, July 18—(AP)—A clearly worded declaration that the Townsend plan was not feasible and that no other plan under the capitalistic system would bring economic security was made to the Townsend convention today by Norman Thomas, Socialist candidate for president.

Interrupted frequently by boos, once so prolonged that Dr. Francis E. Townsend, leader of the movement, had to ask that he be heard, Thomas explained that he did not believe that the transactions tax, through which it is proposed that the money be raised to pay a $200 a month pension to all over 60, would work.

Asks for New Order

Thomas wound up with an appeal that they rally together into orgainzations that would do away with the capitalistic system and bring about a new order, which he said, would give them that security which they desired.

The Socialist presidential candidate's speech came just after the convention had been stirred into a whooping, purse opening frenzy of enthusiasm by a display of unanimity among the leaders of the movement and a series of emotion rousing appeals by Gerald L. K. Smith and Gomer Smith. The Smiths who have been at outs, asked the delegates to rally behind Dr. Townsend in defending a suit brought by Dr. A. A. Wright, of Cleveland, a former Townsend director demanding an accounting of funds and the ousting of Townsend.

Much Money Collected

Thousands of dollars had been collected in cash and pledges before the day ended. Hundreds of delegates pushed their way to the platform, opening bill folds, check books, battered pocketbooks and untying money from handkerchief corners.

The day saw, too, the adoption of a series of resolutions, which put the convention on record as:

Condemning the congressional committee which recently investigated Dr. Townsend.

Declaring that partisan political speeches made before the convention represented only the views of the speakers.

No Endorsements

Resolved not "at any time during the campaign, directly or indirectly" endorse any presidential or vice-presidential candidate.

Determined to leave up to the board of directors the question of reconsidering previous approval that may have been given to congressional candidates.

Empowering the national board and state area manager areas to devise a new method for a systematic way of financing the organization.

Desirous of investigating the possibility of sending a representative to the world youth conference at Geneva.

Youth As Director

Recommended that a youth be placed on the board of directors and that there be youths on state boards.

In Chicago today, Representative William Lemke, presidential

NYA Announces Plans for the Continued Employment of 6,000 Youths in Missouri

Allocation of $283,700 for First Quarter of New Fiscal Year Disclosed by Director Buckner; Few Changes in Program Planned

With an allocation of $283,700 for the first quarter of the new fiscal year, C. C. Buckner, state director of the National Youth Administration, announced plans yesterday for the continued employment of 6,000 youths now working on projects.

The NYA head said a few planned changes would not greatly affect the present status of the program. Recognition will be made, he added, of the districts suffering heaviest drought losses. In these, he said, more projects would be distributed.

A new age ruling, Buckner explained, set the limit of eligiblity for project employment at 18 to 25 years, but youths 16 to 18 already employed will be allowed to continue thier present jobs for a limited time.

Buckner said about 97 per cent of the NYA funds would continue to be paid for labor payrolls.

The new program was explained yesterday to the representatives of the NYA from the eleven Missouri districts at a statewide meeting.

"New project applications must be submitted and approved for all work under the new program," Buckner said. "However, requests for the re-establishment of the present projects and endorsement of these projects by communities indicate that much of the present work will be continued.

"Projects will still be judged for approval on the basis of their suitability to youth employed and benefit to youth generally. Recognition will be made of districts suffering heaviest drought losses in the distribution of new projects.

1,573 Convictions by Highway Patrol in 3-Month Period

Troopers Arrest 2,682 Persons, Give Out 6,381 Warnings to Drivers

The Missouri Highway Patrol, on a "beat" of 506,600 miles, reported 1,573 of the 2,692 persons it had arrested in a three-month period ending June 30 were convicted.

Col. B. M. Casteel, in making the report, said much of his troopers' work had been on the highway where they handed out 6,381 warnings to motorists for minor infractions of traffic laws and supervised motor car light corrections in 21,112 instances.

Give Motorists 'A Chance'

"We always believe in giving motorists a chance," said Col. Casteel. "But when we tell them to make corrections, we really mean it."

Only one acquittal in the nearly 3,000 arrests was reported. However, 22 of the charges brought by the patrol were dismissed by the prosecution and 194 other cases were turned over to local officers. Fines of $11,753 were assessed 1,286, not to speak of the $13,214 in court costs marked up against the defendants.

40 Sent to Pen

Penitentiary sentences were meted out to 40 of the number, with 55 sent to jail for short terms and 643 still awaiting trial.

Errands of mercy were no small part of the patrol's work for the three months, with service, such as helping fix tires and bringing gasoline for empty tanks, given 706 motorists. First aid treatment was administered to 26 persons on the road and 2,889 accidents were reported.

The patrol recovered 91 stolen motor cars during the period.

Bids on 136 Miles of Road Announced

Concreting of Traffic Highway in St. Louis Largest Project

Low bidders on the construction of 136 miles of new roadway at an estimated cost of $1,086,200 were announced yesterday by the state highway department.

The largest project included the letting for the concreting of 13.3 miles on traffic relief highway 40 into St. Louis county from Wentzville. On this, the Regenhardt Const. Co., of Cape Girardeau submitted a low bid of $339,068.

The projects, which include 14 miles of concrete, 14 miles of gravel, 13 miles of bituminous mat, 60 miles of surface treatment, and 10 miles of graded earth, will be financed with $248,300 in WPA funds, $275,850 in other federal funds, and $562,050 in state funds.

To Receive Bids on 269 Miles of Improved Roads

The state highway department announced yesterday that bids for the construction of 269 miles of improved roads would be received July 31.

The projects will be financed by $458,400 in state construction funds, $712,500 in federal aid funds matched with an equal amount of state funds, and $110,800 in WPA funds.

Drivers of Two Careening Cars Get Jail Terms

Fulton and Columbia Men Admit Being at Wheel While Intoxicated

Two careening motor cars, one driven over Highway 63 from Columbia and the other over Highway 54 from Fulton forcing other motorists off the pavement, yesterday led to jail sentences for both drivers.

Both men Arthur White of Fulton and Fred Stewart of Columbia, pleaded guilty in justice courts to charges of driving a motor car while intoxicated. White was sentenced by Justice Pros LePage to 90 days in jail, and Stewart was fined $100 and sentenced to 90 days in jail by Judge Foster Wheatly.

Patrol Arrests White

White was arrested by the state highway patrol Friday night after his car had forced two motorists off the slab on Highway 54 while driving from Fulton to Jefferson City. His wild drive ended when his car caught fire on Swift's highway. The car was only slightly damaged by the blaze.

Stewart was arrested at Bolivar and High streets by Traffic Officers Tellman and Durham after motorists on Highway 63 had complained Stewart was occupying the wrong side on the road, forcing them off the pavement.

His arrest followed a brief chase in which the policemen said Stewart continued to careen from one side of the street to the other.

Gin Found in Car

From the car, officers removed a quart bottle containing a quantity of gin, and a bottle of ginger ale.

Stewart asked to change his guilty plea to a plea of innocent after Judge Wheatly had passed sentence, but the magistrate refused his request.

"You admitted your guilt and I won't let you change it," the judge said. "You're going to have to serve that sentence and pay the fine, as far as I'm concerned."

Frank Loethen was fined $25 on a charge of engaging in plumbing work without a license, but a stay on the fine was granted when he promised Judge Wheatly he would live up to the city ordinance.

Additional Donations Swell Ice Fund to $193

An additional $40 in contributions was received yesterday by William Tellman, in charge of the ice fund, bringing the total to $193.

Contributions of $1 were made by Stella Blank, Mrs. A. A. Lister, Eugene Sine, Edna Jones, Jessie Mitchell, Mrs. J. G. Slate, Mrs. A. E. Longnecker, Mrs Maude Love, Anonymous, Ferd Artz, and Miss Nell Edon. Anonymous, 50 cents, Anonymous $2, Dr. Edgar Tanner $1.50, Capitol Lodge I. O. O. F. $5, Sylvester Lohman $5, Judge W T. Ragland $5 and A. J. Hirst $10.

Marriage License

A marriage license was issued by County Recorder Henry LePage to Oscar E. Tyree of Jefferson City, and Mary Bernice Lytton of Linn.

Son to Heckmans

A son was born at St. Mary's hospital yesterday to Mr. and Mrs. Herman Heckman of Meta.

Light Shower Falls in Area; Relief Is Due

Rains in Eastern and Southern Parts of Missouri Are Forecast for Today

Heat Victims in Local Hospitals Are Improved

Northwest Portion of U.S. Visited by Cool Weather; Aid for Farmers Being Mapped

A sprinkling of rain—the first since the last day of June—"teased" drought-stricken central Missouri late yesterday following another blast of heat that sent the mercury soaring past the century mark for the fifteenth straight day.

Accompanied by a short rumble of thunder, light rain fell for about ten minutes, cooling the air but briefly. The drizzle came after the temperature had reached a top of 105 during the afternoon.

Relief Forecast

Some relief was forecast for today, the weather man predicting local thundershowers in the eastern and southern portions of the state. A welcomed forecast of "not so warm" also was issued.

Meanwhile, hospital attendants reported "improvement" in the condition of most heat victims being treated there. The condition of Andrew Loethen, however, was pronounced "serious."

The Associated Press reported most of the state felt some relief from the heat wave as clouds diminished the sun's intensity and gave promise of thundershowers.

118 Degrees at Lamar

A high wind yesterday afternoon followed a maximum temperature of 118.5 degrees at Lamar. Limbs were broken from trees by the wind. Nevada, also in southwest Missouri, reported a top of 117, a degree higher than ever had been recorded there.

The whole Ozarks area suffered as Joplin, Carthage, and Neosho reported 111, equalling the Joplin record and surpassing all time highs at the latter two points. The record also was equalled at Springfield, where it was 106.

A light evening shower cooled Springfield 26 degrees, but a sprinkle at Joplin was too scant to affect the temperature.

There was little promise of general relief for the state today, but weather forecasters said thundershowers might develop over northeast Missouri.

Only 84 at Hannibal

Cities in the northern half of the state already had experienced some relief despite the lack of rain, with Kirksville reporting a relatively cool 90. It was 84 at Hannibal and 94 at Maryville.

Other temperatures included 104 at Kansas City, 103 at St. Joseph, 99 at Poplar Bluff, 97 at Columbia.

The state's heat death toll stood unofficially at 357. Eight died of heat prostration in St. Louis as the mercury touched 99.

A light shower at Bethany was the only other precipitation reported in the state during the day.

Cool Showers Kill Much of Heat Wave

CHICAGO, July 18.—(AP)—Cool showers killed the heat wave today in the land where it killed the most people.

After 15 days around the 100 degree mark, temperatures slid to the 70's in sections of Minnesota, Michigan and Wisconsin—states where 1,800 lives were lost—and promised to remain more bearable for three or four days while much of the rest of the farm belt

Siamese Twin Sister Marries Dancer at Fair

DALLAS, Tex., July 18.—(AP)—A brunette Siamese twin sister was married here tonight to a tall dancer and musician with the other twin assuring:

"She has never resented my presence when on dates with gentlemen friends and I know this marriage will cause no rift between us."

In the Cotton Bowl of the Texas Centennial Exposition, 28-year-old Violet Hilton became the bride of James Moore, Cleveland, O.

"I've been in love with Jimmy since I met him two years ago at San Antonio. We tried in several eastern states to arrange a wedding but strict state laws calling for the establishment of a resident stopped us."

One-Day Session of Federal Court Is Set for July 27

Motions in Law, Equity, Bankruptcy Cases Will Be Heard

A one-day session of federal court presided over by Judge Merrill E. Otis has been set for Monday, July 27, it was announced yesterday.

Attorneys were advised the only matters which will be disposed of are motions in law, equity and bankruptcy cases, and the arraignments of cases on the criminal docket.

Court will open at 9:30 o'clock in the morning with the hearing of motions in twelve civil suits. Criminal cases will be called for arraignment at 12 o'clock noon at which Judge Otis will pass on guilty pleas.

Motion on Land Case

A motion to allocate and apportion costs in a Bagnell dam land condemnation case, that of the Union Electric Light & Power Co., against Harriett C. Floyd, et al, is the first on the docket.

A stipulation for dismissal will be heard in a case brought by Mrs. L. V. (Jewell) Holloway against the Southwestern Greyhound Lines.

Motions in seven bankruptcy cases also will be heard and ruled on before the criminal docket is taken up at noon.

Gunfire from Guard Nips Prison Break

4 Ohio Pen Convicts Caught Trying to Flee Over High Wall

COLUMBUS, O., July 18—(AP)—An alert guard nipped with gunfire today an attempt of four Ohio penitentiary convicts to flee over a stone wall 30 feet high.

They attempted to toss a mattress-twine rope over a space between the top of the prison's industrial building and the west wall.

Guard R. L. Pennington saw them and one shot from his high-powered rifle sent the prisoners rushing back into the building.

Other guards, attracted by the gunfire, captured Morris O'Flaherty, 27, of Cleveland and Henry Mershon, 33, of Cincinnati, both serving terms for robbery. They were placed in solitary confinement.

Mershon and O'Flaherty were armed with a rubber blackjack and a wooden pistol, similar to that used by the Dillinger gangsters, Charles Makley, who was slain, and Harry Pierpont, who was wounded in an attempt to break from the prison's death house two years ago.

City Gambling Houses Raided, Five Arrested

2 of Men Are Charged with Operating Dens of Chance, 3 Others with Loitering

Paraphernalia, Liquor Is Seized by Police

Chief Bruner Instructs Officers to Destroy All Equipment; Woman Held as Vagrant

Police, under the direction of Chief of Police John Bruner, last night made a series of raids on alleged gambling houses, arrested five men and seized a small quantity of gambling paraphernalia.

Two of the men were charged with operating gambling houses and the three others with loitering around the houses. All were released on bonds of $200 to appear before Judge Foster Wheatly Monday morning.

List of Arrests

Those arrested and the charges:

Charles Roark, arrested at 108½ West High street, charged with operating.

Herman Christian, arrested at 306 Jefferson street, charged with operating.

Roy Stranch, arrested at 306 Jefferson street, charged with loitering around a gambling house.

M. C. Jobe, arrested at 306 Jefferson street, charged with loitering around a gambling house.

Nolle Drinkard, arrested at 306 Jefferson street, charged with loitering around a gambling house.

To Destroy Equipment

Chief Bruner said he had instructed the raiding officers to destroy all equipment found in the houses. Paraphernalia returned to headquarters for evidence included cards, dice and poker chips.

Raids also were conducted on other alleged gambling houses, but they proved to be "water hauls," no evidence of gambling being found.

Several hangers-on, found in the places visited, were taken to police headquarters where they were questioned and released by the police chief. Two women, arrested in a house on Water street, were among those released.

Weapons Confiscated

In the last raid of the evening, police visited a place called "Old Homestead" in Renn addition and arrested Dorothy Adison on a charge of vagrancy.

Claude Reed was arrested in the 400 block East Miller street where, officers said, a small quantity of moonshine liquor and four weapons—two shotguns, a rifle and an ancient revolver—were confiscated. Reed, Chief Bruner said, will be turned over to federal authorities for prosecution on a liquor charge. He was held in the county jail last night.

Labor's Non-Partisan League to Meet Today

Missouri state representatives of the labor's non-partisan league will hold their first meeting here today to discuss formal plans for the organization's participation in the national campaign. The league is supporting President Roosevelt for re-election.

Temporary committeemen expected to attend the session include: Charles A. Sumner, R. T. Brooke, Roy Fulton, F. R. Lee and Edgar Williams of Kansas City; W. M. Brandt, Martin A. Dillman, Grant Hammond, Jerry L. Manks, M. Michelson and John G. Warrington of St. Louis; J. R. Andrews of Springfield, David E. Apinter of St. Joseph, Mrs. Mary Cramer of Hannibal, and Charles J. Affolter of Jefferson City.

Permanent officers will be elected at the meeting.

Home Buying Spurt in State Indicated by Pronounced Gain in Building Loans

Missouri is in the middle of a home buying spurt which has seen loans of state building and loan associations increase 87 per cent in the last year.

The state building and loan department, in announcing the sharp gain pointed out that the associations had reported a 35 per cent jump in loans for building purposes in the same period.

"These loans mean home owning is still the main idea," said J. W. McCammon, secretary of the state bureau, yesterday.

The building and loan associations' activities have been mounting since 1934, with their loans increasing more than 200 per cent in the two-year period.

The figures on the loans, McCammon said, were compiled by field examiners of the state department and by Lucie S. Richardson, secretary of the state league of building and loan associations.

McCammon explained that much of the rehabilitation work of the associations, beginning about the same time as the banking moratorium of 1933, has been completed.

Numerous reorganizations, he said, had been made in the last four years to strengthen the associations. At the present the state department is studying the building and loan associations in Kansas City.

Officer Is Positive Bullet That Killed State Girl-Bride Was Not Self-Inflicted

ST. JOSEPH, Mo., July 18 (AP)—Chief of Detectives John T. Duncan said tonight he was "positive" the bullet which Thursday killed 14-year-old Mrs. Mildred Gray Wheeler, wife of 60-year-old Tom Wheeler, was not fired by the girl-bride.

Duncan said he did not have "a single lead" in the case but that he and other detectives were convinced the case was not suicide, as at first believed.

The girl, married at Savannah, Mo., three weeks ago, was found Thursday afternoon in a shed at the home of her mother, Mrs. Minnie Shipley, here, shot through the heart with a small-calibre rifle which had a string attached to the trigger.

Friday Dr. Cabray Wortley, acting coroner who at first indicated his belief Mrs. Wheeler had shot herself, announced he would not sign the death certificate until further investigation was made.

Duncan said tests showed the string on the rifle trigger was not strong enough to fire it. He also expressed doubt the trigger could have been worked by a string pulled by some one who was in front of the rifle.

Duncan also said the bolt-action rifle could not have been operated by an inexperienced person.

Mrs. Wheeler's death came the

Longfellow's Grandson Sets Junior Air Record

NEW YORK, July 18—(AP)—Twenty-year-old Peter Dana, a great-grandson of Henry Wadsworth Longefellow and of the Richard Henry Dana who wrote "Two Years Before The Mast," tonight found that 22 hours behind the stick of his airplane had flown him into a much needed job and an unofficial transcontinental junior air speed record.

The youthful aviation enthusiast set his light low-winged monoplane (Ryan) down at Long Beach airport on Long Island at 3:37 p. m. today to complete his flight from San Diego, Calif.
